INT 34

Standardized COMSEC Custodian Course Europe (SCCC-E)

INT 34 is a two week extensive course requiring reading, homework, policy discussion, and researching publications.

INT 34 reviews the policies and procedures needed to manage COMSEC accounts, including the receipt, security, inventory, accounting, transfer, and destruction of COMSEC material.

The course provides initial certification and a basic foundation to conduct secure COMSEC operations in traditional manual operations.

INT 34 is designed to provide standardized COMSEC procedures for managing COMSEC accounts in the U.S. Army. The course is mandatory for COMSEC officers, primary and alternate COMSEC custodians, and command COMSEC inspectors IAW AR 380-40 and TB 380-41.

INT 35

Local COMSEC Management Software Course Europe (LCMS-E)

INT 35 is a two week course requiring the use of a fully configured workstation and its peripheral equipment in practical exercises.

The course teaches automated accounting procedures to manage COMSEC material, including receipt, security, inventory, accountability, transfer, safeguarding, and destruction of COMSEC material.

This course is designed to provide skills and knowledge to manage COMSEC accounts in the US Army utilizing the Local COMSEC Management Software. The course is mandatory for COMSEC officers, primary and alternate COMSEC custodians, and command COMSEC inspectors IAW AR 380-40 and TB 380-41.
